GRAPE VARIETY	Cabernet Sauvignon
VINEYARD REGION	South Australia
WINE ANALYSIS	Alc: 14.5%, Acidity: 6.1 g/L, pH: 3.69
MATURATION	Seasoned French and American oak
VINTAGE CONDITIONS	Winter rainfall was near the long-term average, although July was unusually dry. Spring temperatures were generally warmer than average with excellent climactic conditions for bud burst and flowering. Summer was cooler than average with no extended heat spells. Summer rainfall was 20% above the long-term average. The generally mild conditions made for an excellent harvest, with shiraz and cabernet sauvignon grapes exhibiting text book varietal character.
COLOUR	Lively deep crimson with garnet hues.
NOSE	Distinctive cabernet notes of bay leaf and blackberry leaf provide clear varietal markers. With a swirl, lifted aromatics of dark red cherries and mulberries jump from the glass. Behind the fruit, oak derived notes of cooking spices emerge, including cardamom, allspice and vanilla bean pod.
PALATE	Blackberry and dark red cherry fruits follow onto the palate. An enticing, savoury profile. Cranberry and pomegranate succulence helps provide a sweet/sour dynamic. A combination of American and French oak offers a sweet char nuance. The oak doesn't poke out or linger, rather sitting supportively with the fruit. The structural tannins are fine and grainy helping to drive the finish. The palate lingers from the delicious dense fruit and bracing tannins.
